

Structures Co-op - Boston

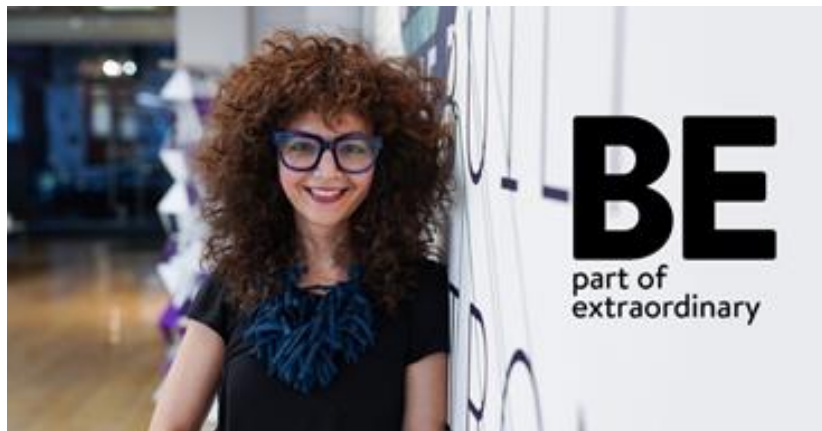

Buro Happold has a fantastic opportunity for a passionate and dedicated Structural Co-op to join our inclusive and experienced team. This full-time Structural Co-op role comes with an attractive pay rate and the chance to join a friendly and diverse workplace culture.

As a Structural Co-op, you will work with some of the brightest minds in the industry, contributing to unique and innovative projects that inspire awe, transform communities, and help to combat climate change.

Here at Buro Happold, expect the exceptional.

If you were already working in this Structural Co-op job last week, here are some things you would have been doing:

- Contributing to the progression and delivery of structural engineering projects
- Undertaking structural engineering design and calculations
- Participating in project meetings
- Assisting in the documentation of structural engineering designs
- Assist in oversight of projects in construction

To apply for this Structural Co-op role, you will need to be currently pursuing a Bachelor's or Master's degree in civil or architectural engineering with an emphasis on structures. You will also require the following:

- Coursework in structural analysis and design.
- Steel design, and reinforced concrete design courses are a plus
- Revit and 3D modeling skills (Rhino, SketchUp, etc.) are a plus
- Interest in the built environment

- Eagerness to learn and work as part of a multidisciplinary team
