

Smarter. Stronger. SteelDay.

STEELDAY 2019 AT BOSTON ATC

Autodesk will be hosting a SteelDay event at its Autodesk Technology Center in Boston Harbor. Attendees will tour Autodesk's innovation lab and see demonstrations and exhibitions from industry groups like NISD, IMPACT and AISC. They will also hear presentations about the future of the industry from thought leaders like Hatfield Group and Canam Group. Lunch will also be provided for this event. Who should come: We invite steel detailers, fabricators and erectors, as well as architects, engineers and general contractors interested in learning why and how structural steel is the material of choice for building projects. Space is limited, so register soon.

About Your Host

Autodesk makes software for people who make things. If you've ever driven a high-performance car, admired a towering skyscraper, used a smartphone, or watched a great film, chances are you've experienced what millions of Autodesk customers are doing with our software.
